STATEMENTS OF DONALD CAPOCCIA AND MARTHA GALLO ON MR. CAPOCCIA'S ELECTION AS CHAIR OF THE BATTERY PARK CITY AUTHORITY BOARD

Mr. Capoccia brings twelve years of BPCA Board experience, a career founding and leading a successful affordable housing development organization, and a lifetime commitment to parks and the arts.

Statement of Donald Capoccia

"I'd like to thank my fellow Board members for their confidence in me. The only reason I would even consider this opportunity is because of the extraordinary range of skills that they all and we have. We've worked together amazingly well in the last several years, so I look forward to more of that. And also, the staff is just extraordinarily skilled in every area that they are responsible for here, and handle their work in a very responsible and excellent way. I look forward to continuing all of that, and to following in Martha Gallo's footsteps, as she continues on as the Board's Vice Chair."

Statement of Martha Gallo

"As our resiliency construction progresses and discussions with the Authority's ground lessees continue to advance, we are fortunate to have as Board Chair someone with Don's extraordinary track record as a builder and civic leader. As both Vice Chair and as one of two members of the Board living in Battery Park City, I look forward to advancing our critical work in the years ahead."
