

**Project: Roll Up Door Maintenance,  
and Repair Services**

**Date: January 29, 2024**

**RE: Addendum #2**

**# of 1**

**Pages:**

---

---

The following revisions and/or clarifications are to be made to the proposal documents for Roll Up Door Maintenance and Repair Services. They are a result any questions received by January 17, 2024, 5:00 p.m.

Questions: (answers to all question are shown in Italics immediately after the question)

1. Does maintenance and repair involve electrical work?

*No electrical work will be expected beyond the motor disconnect, i.e., Proposer will be responsible for wiring and electrical components within the motor and control systems for each door, but not with any electrical components or systems of the base building.*

2. Are structure drawings available?

*BPCA does have structural drawings, however there is no expectation of structural work needing to be done. Should the need arise, BPCA can provide relevant materials to the selected Proposer.*

3. Would you please provide the sign in sheet from the site visit in an addendum for this project?

*The Pre-Proposal Meeting and Site Walkthrough was attended by 2M Corporation. They were the only vendor to attend.*
