

# Travel Advisory

## South Battery Park City Resiliency Project

Starting Thursday, March 14 through Friday, March 15, overnight work will be performed along West Street's southbound lanes in Lower Manhattan. As a result, southbound travel lanes along West Street, between Albany Street and Battery Place, as depicted below, may be reduced by one lane from 9PM to 5:30AM.

The South Battery Park City Resiliency Project (SBPCR) represents one of several projects within the overall Lower Manhattan Coastal Resiliency (LMCR) Master Plan. SBPCR is a BPCA capital project designed to provide flood risk reduction for Battery Park City and Lower Manhattan in response to increasingly frequent and more severe storms. More information about SBPCR can be found at <https://bpca.ny.gov/sbpcrp/>.

Questions and feedback about SBPCR can be directed to:
